Farther. Faster. And better connected.

The Falcon 7X is designed to fly 5,950 nm (11,019 km), linking city pairs such as Paris-Tokyo, Shanghai-Seattle, New York-Jeddah, and Johannesburg-London, with a payload of eight passengers and three crew. With a .90 Mach Maximum Operating Speed (MMO), the Falcon 7X can also cover shorter distances to get you faster where you need to be.

EASy II: Business aviation's most advanced flight deck
Dassault Falcon's EASy flight deck is a revolutionary man-machine interface, which dramatically improves situational awareness, decreases pilot workload and enhances crew coordination. EASy II, its second generation, offers a host of new functionalities and features designed to further increase safety and situational awareness while taking advantage of next-generation technologies within the air traffic management system.

2012 Dassault Falcon 7X

Serial 115 Registration N900JG

EASy II supports the latest communications protocols mandatory over a growing number of airspaces, including Automatic Dependant Surveillance – Broadcast (ADS-B) out which reports aircraft position to supplement radar coverage; Aeronautical Telecommunication Network (ATN B1) Controller Pilots DataLink Communications (CPDLC) which reduces miscommunication by allowing Air Traffic Control (ATC) communicate with pilots via a text-based protocol.
